Dear Neighbors:

As indicated at our third neighborhood meeting held early Summer, the West Ann Arbor Health Center construction team is now transitioning to the second construction phase. Over the next few months the construction team will be erecting the steel building structure for the Center. This will be the most noisy phase of construction, concluding mid winter. Construction will continue to begin at 8:00 am although some site mobilization will occur between 7:00 am and 8:00 am. Saturday construction activities will occur most weeks as weather conditions require and will follow weekday hours of operations.

We continue to anticipate construction completion by end of Summer 2017.

We appreciate your ongoing support and understanding. Feel free to let us know if you have questions or concerns.

Thank you,

Sue Gott,
University Planner
