

THE UNIVERSITY OF MICHIGAN  
REGENTS COMMUNICATION

ITEM FOR INFORMATION

Subject: Fiscal Year 2026 Capital Outlay Submissions  
All Campuses

Background:

In October 2024, the University of Michigan submitted to the State of Michigan capital outlay requests and five-year plans for the Ann Arbor, Dearborn, and Flint campuses for the 2026 fiscal year. The plans include information on the university's mission, instructional programming, staffing and enrollment data, facility condition assessment, and major projects anticipated over the next five years. Each year, the university has the opportunity to update information and amend the plans as needs and priorities change. Any project accepted by the State of Michigan for funding requires an action request approved by the Board of Regents.

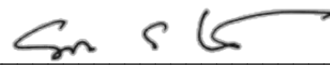

The Ann Arbor campus submitted the School of Public Health Renewal renovation project for funding consideration. This renovation would enable the university to transform and expand its instructional and research space to support one of the fastest-growing degrees in the nation. The estimated cost is \$150 million.

The Dearborn campus submitted the Computer and Information Science Building renovation project for funding consideration. The renovation would address infrastructure and provide updates to the existing building with a small addition to accommodate the program. The estimated cost of this project is \$40 million.

The Flint campus did not submit a project request for funding consideration for the 2026 fiscal year. Last year the Flint campus submitted the College of Innovation and Technology's new building project for funding consideration and received a \$30 million commitment from the State of Michigan.

Over the years, the State of Michigan has made significant and strategic investments in all three University of Michigan campuses through its capital outlay program. This support has been crucial to our efforts in providing an exemplary learning, teaching, and research environment, and we look forward to future opportunities to partner with the State of Michigan.

Respectfully submitted,

---

Geoffrey S. Chatas  
Executive Vice President and  
Chief Financial Officer
